Chapter I: Into The Dream

The Rabbit Hole

Chapter II: Endless Days and Nights

Forever

My hearts gone
He no longer lies by my side
He left at dawn
And once I lie alone

Still endless days and nights
I wait for you
Cause deep inside this flame
I know it's true

Forever starts today
Forever we will be
Forever's every day
Forever faithfully

It's been three weeks
(You know I had to leave)
Your voice is all I have to hold
I lie here alone
(I'd be there if I could)
Awaiting for my loves return

Still endless days and nights
I wait for you
Cause deep inside this flame
I know it's true

Forever starts today
Forever we will be
Forever's every day
Forever faithfully

And through it all
No matter
It all comes down to you

Forever starts today
Forever we will be
Forever's every day
Forever faithfully

Forever I will be

Chapter III: Forever Infinity

All For You

The seasons come and go
Another night another show
I step into the lights
Knowing we will be alright

Even when I'm far
You know I'm always there with you
And through this all

You know that you're the reason
In everything I do
It's all for you
You know that you're my reason in life
It's all for you

These faces come and go
And all I do is think of you
I'm on the long road home
The road that leads me straight to you

I know it's hard
I promise you we'll be alright
And through this all

You know that you're the reason
In everything I do
It's all for you
You know that you're my reason in life
It's all for you

*Chapter IV: The Storm
Lost At Sea*

My beautiful liar
Why are you crying
On your knees
You've crucified yourself
And now denial is rising

Why
So tell me

So tell me how did you lose yourself at sea
Drifting within
So tell me why did you cast yourself away
It's such a sweet addiction
You should celebrate

My beautiful liar Why
You are drowning So tell me
In your fear
You're cutting into me
You think if I bleed
It can save you

So tell me how did you lose yourself at sea
Drifting within this
So tell me why did you cast yourself away
It's such a sweet addiction
You should celebrate

And you know if I could
I'd take your pain
But will you turn and face your disease

*Chapter V: Standing In The Rain
Mechanical Love*

I remember you that night
standing in the rain
Your black stare
Your black eyes
I remember what you said
Before I turned away
My heart died
Your sweetest lies

And if I saw you bleed
I'd stay here till the end
But you cant change for me

And I know you'll never understand me
No matter how hard we try
And I, know I'll never understand you
And your mechanical love

I still hear you in my sleep
Your running through my veins
Your whispers, your machine
we knew it was meant to be
But never meant to last
I'm sorry, you always knew

And if I saw you bleed
I'd stay here till the end
but you cant change for me

And I, know you'll never understand me
No matter how hard we try
And I, know I'll never understand you
And your mechanical love

*Chapter VI: The Underworld
Her Kiss*

I feel you growing closer
I feel you in the air
And I call
I know you hear the voices
I know you're drawing near
And I'm waiting

Come away
Come away with me
Come away

In the dawning of my night
I am free
Lying by your side

There's a fire in the water
You're drifting into me
Falling free
Burning eternally
Confessing all
I keep thee

Come away
Come away with me
Come away

In the dawning of my night
I am free
Lying by your side
And as the stars begin to call
I awake
As you're diving down for me

*Chapter VII: The Promise
Into The Light*

Can anybody tell me why
We're lying here on the floor
And neither of us can barely breathe at all
The doctors saying hold on tight
As we say our last goodbyes
And this is, a moment that changes our whole lives

And I still believe in the good
And I still believe in the light
And I wanna feel the sun
I wanna free you tonight
And I still believe in the good
And I still believe in the light
And I wanna feel the sun
I wanna free you tonight

I'm staring deep into your eyes
They're telling me the time has come
And I know you're ready to rise and sail home
The room is filling up with light
As we say our last goodnight
I thank you for every second of your life

And I still believe in the good
And I still believe in the light
And I wanna feel the sun
I wanna free you tonight
And I still believe in the good
And I still believe in the light
And I wanna feel the sun
I wanna free you tonight

I'm falling, watching as your hurting
I'm down here I'm on my knees
How can I survive
And you turn to me and promise me you're ready
And tell me you'll be waiting on the other side

And I still believe in the good
And I still believe in the light
And I wanna feel the sun
I wanna free you tonight
And you showed me all the good
And you lead me through light
And you gave me the sun
It's time to free you tonight

Chapter VIII: Unconditional
You Always Believed

I think back on the years we shared
All the times you stood by me
All the pain you wiped away
All the things you ever said
I think back how you carried me
And you never once have doubted me
And you were my
My hero through it all

I thank you for the moments of your life
And never giving up on me

And you held me through it all
And you never let me fall
And you let me fly away
And you always believed

I think back how you overcame
All the times you could have slipped
The way you fought the winds of change
All the times your wings were clipped
You taught me how to reach the stars
You taught me how to heal my scars
And you were my
My hero through it all

I thank you for the moments of your life
And never giving up on me

And you held me through it all
And you never let me fall
And you let me fly away
And you always believed in me

Chapter IX: Empires Fall and Rise Again
The Great Divide

How did we get this far
How did this come to be
Why does fear dominate
When all we want is peace
We've got to find a way to heal
The wounds that we have bled
The empires fall
And rise again

Save us, save us from ourselves
Now

We're fighting without a reason
We're killing her softly day by day
We're guilty we're all in treason
It's time to mend this great divide

We have to end the hate
And fight hypocrisy
We have to believe in life
And all humanity
Think of the children that have to live
In what we leave behind
The empires fall
And rise again

Save us, save us from ourselves
Now

We're fighting without a reason
We're killing her softly day by day
We're guilty we're all in treason
It's time to mend this great divide

*Chapter X: Imagine
Violet Skies*

Dulling from within to find a reason for it all
Lost for years
In the storm
Waiting for the rain to stop from washing me away
I held on tight
Awaiting night

And I lay me down to sleep
And find a world where I was free

Imagine a place
Where dreams lead the way
And all of your colors fade the grey
Imagine the dream
Now close both your eyes
Fall into the violet skies

Deep inside your eyes it shows
You've been lost for too long
Out of touch
On the edge
I promise you will find a way
I found a pathway home
I'll carry you
You're not alone

So now I lay us down to sleep
I found a world where we are free

Imagine a place
Where dreams lead the way
And all of your colors fade the grey
Imagine the dream

*Chapter XI: The Rabbit Hole
The Dream*

Lavender clouds
Nothing matters here
Flying above
The ultraviolet sphere

And I will not look down

I am falling down the rabbit hole
Come so come with me and float
into the never ending dream

We see god
In the morning sun
Touching the moon
Our birth has just begun

And I will not come down

I am falling down the rabbit hole
Come so come with me and float
into the never ending dream
